Ava Chikan E-Commerce View Store

Tech: React.js, Node.js, Express.js, MongoDB

- Full-stack e-commerce web application with product listing, cart, and admin inventory management.
- Responsive design with Tailwind CSS for a smooth user experience.

Aman chikan website | [Link](#)

React js, Express js, Tailwind css, mongo db

- Developed a responsive static website for Aman Chikankari, a traditional Indian clothing brand specializing in handcrafted Chikan embroidery. The site highlights the brands story, product collections, and cultural heritage through a clean and elegant design.

Key Highlights:

- Built using React.js to create reusable and well-structured components.
Designed fully responsive layouts for seamless browsing on desktop and mobile.
- Showcased collections, fabric types, and embroidery details with interactive UI sections.
- Focused on brand storytelling through a visually appealing "About Us" and "contact" section.
- Optimized for fast load times and smooth user experience.
